

OneShot depositor
NeraOne

Why Nera depositor?

10 reasons

With NeraOne we offer a flexible and compact One-Shot depositor which is based on the needs of our customers. Our innovative team, together with the feedback from our customers, has developed a new generation of filling machines for confectioners and chocolatiers.

New generation depositor requested from market.

- 01 Pitch distance can be changed
- 02 Nozzle / Dispenser can be increased
- 03 Every nozzle can deposit different volume
- 04 Extremely precise depositing
- 05 Closed system, without leakage
- 06 Light, small, less parts (easy cleaning!!)
- 07 Compact size and design.
- 08 Endless dosing for infinite volume
- 09 iPad Cloud based operation system
- 10 Low energy consumption

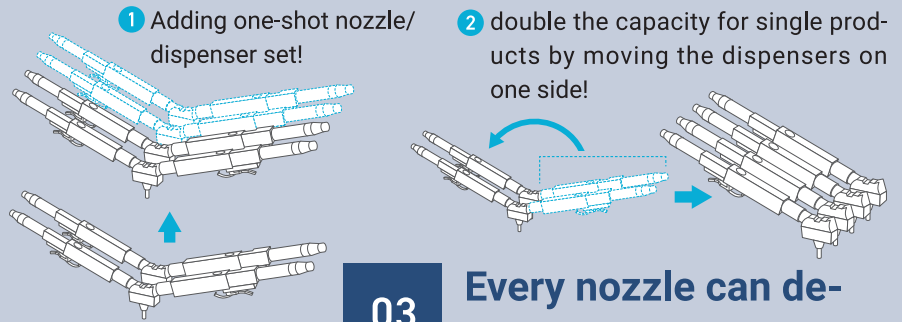

01

Pitch distance can be changed

02

Nozzle / Dispenser can be increased

03

Every nozzle can deposit different volume

04

Extremely precise depositing

99% repeatability even in small volume deposit.

As NeraOne don't use nozzle plate and very short channel to nozzle, depositing is extremely precise!

05

Closed system, without leakage

Compared to piston depositor, there is no leakage and chocolate / mass has no contact to air!!

- ▶ No dry out for sugar masses!
- ▶ Products with inclusions are possible!
- ▶ Aerated massed can be deposited!

Aerated massed can be deposited!

06

Light, small, less parts (easy cleaning!!)

Weight of NeraOne is only about 350kg.

Very light hopper!!

All parts can be easily cleaned in dishwasher!!

07

Compact size and design.

Depositor is so compact as width of 750mm and transport through the door is very easy!

Belt is detachable and it can be installed into your existing line!!

08

Endless dosing for infinite volume

Compared to piston / valve system, endless depositing is possible!

09

iPad Cloud based operation system.

The recipe can be changed from any PC.

Machine data can be easily checked and transferred to another system

10

Low energy consumption

Power Consumption

Average in operation

ONLY 1.5kw!!

It can run even with solar panels
